

Contribution on NESSIE

A. Cover sheet

1. Name of submitted algorithm: **MISTY 1**

2. Type of submitted algorithm, proposed security level, and proposed environment:

(1) **Block cipher**

(c) **Normal-Legacy**

MISTY1 can be implemented efficiently in software (8bit-, 16-bit, 32-bit, 64-bit-processor) and hardware (ASIC, FPGA).

3. Principal submitter's name, telephone, fax, organization, postal address, e-mail address:

Eisaku TAKEDA

E-mail: MISTY@isl.melco.co.jp

4. Name(s) of auxiliary submitter(s):

5. Name of algorithm inventor(s)/developer(s):

Mitsuru MATSUI

6. Name of owner, if any, of the algorithm (normally expected to be the same as the submitter):

Mitsubishi Electric Corporation

7. Backup point of contact (telephone, fax, postal address, e-mail):
